

This is my Faith

I awoke from the mind's sleep in the everyday fuss and herd the voice of my immortal soul, which gave me this symbol of faith. It ties me with numerous human souls, souls of ancestors, contemporaries and descendants. It helps to understand the sense of life, make out good and evil. It teaches to know, love and respect people and world, all live, all lifeless and imaginary, to reach the harmony and welfare, overcome obstacles, create miracles, hope for the better and fight for this religion I believe in.

I profess a religious faith in the greatest value of human. The human over all! Every human from the birth has a huge force, and its source is in a human soul. Soul is a human's greatest value, its force is faith. Thoughts and ideas, plans and projects, dreams and knowledge, love and passion, patience and humility, fantasy, hope, understanding and sympathy, all the best in my mind is a soul. Can we doubt about an existence of a soul? A smile is the most convincing proof of the existence of the soul! A human can share the faith and radiate faith in order to confirm the greatest value of the human. Faith makes a man a creator. Faith makes me better. Faith changes the world. Do smile!

Humiliation and violence are opposite to the faith in the greatest value of the human. Humiliation is the evil, assertion of the greatest value of the human is the good. I do good while helping people to believe in themselves. That one who abases himself and other people does evil. We should struggle against evil. Sometimes evil assumes a deceptive shape. Evil can unite two or more people, dissolve their personalities, and poison their souls by itch for humiliation. Sometimes evil is powerful but faith in the greatest value of the human is always more powerful than evil. Free soul, love to people, knowledge and wisdom of the believers in the greatest value of the human overcome evil which is limited by its senseless aggressiveness, self-admiration, impatience, carelessness, outrage,

brutality, baseness and lack of belief. The evil will be defeated, the greatest value of the human will gain a proof.

I believe that indeed a human can't be humiliated if believes in the greatest value of the human. Violence hurts but it humiliates the aggressor only. Lie and slander can distress and deceive somebody but they humiliate only liar and slanderer. Contempt and enmity of bad people humiliate themselves, but not me. Insanity, lack of will, sicknesses, tortures and death humiliate a body, a soul continues to carry my utmost value from the past's eternity to the future's eternity and will not lose my faith, will not leave this world.

The faith in the greatest value of the human had always been and always will be because this faith is ready to wake up in every human soul. When a human applies to himself, when you ask for a miracle a soul answers and can give what I ask. That's the way the faith in the greatest value of the human is born. It was called, is called and will be called in different ways and sometimes isn't named at all. People created many religions confirming the faith in the greatest value of the human. Faith in one God and faith in many Gods, faith in spirits and faith in the intellect of the Universe, Christianity, Islam, Buddhism and other religions have confirmed the faith in the greatest value of the human. That's why professing me religion, I share a faith of every human, respect any religion which confirms a value of a human. If you believe in God who was created by people to feel not alone and powerless - I trust you so I believe in God together with you and in such a way I confirm the faith in the greatest value of the human and do good. Any form of the faith which is created for assertion of the good is my faith. Because I believe in the greatest value of the every human. And I believe that faith in any its form is as powerful as people's faith in themselves. I trust people and believe in people.

I respect this symbol of the faith and present it to everyone from the bottom of my heart. I hope people will hear their souls, realize the greatest value of the human and smile becoming aware of freedom and wisdom. Purpose of a human's life is in the development, cognition and creation, in the longing for good and struggle for good and such life path leads to happiness. The beginning of every life cycle is a holiday which is worthy to present to people this symbol of the faith in the greatest value of a human. And in the end of a life cycle we should remember how the life confirmed the faith in the greatest value of the human, memorize it and never forget about all the good souls and good works.
